PRODUCTIVITY

FELTEN

Member of the MPDV Group

OUR MOTIVATION IS YOUR ADDED VALUE. PRECISELY PREDICTABLE.

The FELTEN Group is a globally active software and consulting company that develops solutions for process optimization in all areas of production since 1990 in accordance with international quality norms and with high innovation standards. The sum of innovative thinking, excellent competencies and many years of experience results in software solutions with noticeably high added value for the customer.

Our competencies and solutions are particularly appreciated by companies that pursue ambitious goals in optimizing their productivity, focus on holistic concepts or want to form heterogeneous system structures into a harmonious unit. FELTEN also supports internationally oriented globally active companies in the process industry in the worldwide introduction of uniform MES systems.

YOUR BENEFIT

- + integrated MES-based solution concept
- + more than 30 years of industry expertise in the process industry
- + extensive experience from numerous worldwide projects of internationally renowned companies
- + fast ROI and high investment security for all our solutions
- + future-oriented platform for new technologies such as Industry 4.0, IoT, Cloud, Big Data, etc.
- + project realization according to best practice methods
- + distinct customer orientation and service philosophy

Worldwide in about three dozen countries we have already implemented projects based on PILOT:MES. It is the platform for a future-oriented digitization of production, regardless of whether it involves topics such as Industry 4.0, IoT, Cloud or Big Data. After all, we are not only the first provider to pursue the process-oriented Production Intelligence approach, but also positioned ourselves early on practical concepts for digitizing production.

This includes future-oriented industry 4.0 solutions that are already generating high benefits today. Because PILOT:MES complemented by proven best practice methods and customer-oriented consulting creates the best conditions for convincingly supporting production companies in digital change.
